

Records of the Scottish Poor

This is a list of poor rolls, registers of poor, volumes of poor relief applications and various other records containing lists of paupers for parishes in Scotland. Records of individual paupers may also be found in a variety of other sources including kirk session records, heritors' records, parochial board/parish council minutes and sheriff court records.

Records concerning paupers from more than one parish are listed under 'Various' at the top of each county list. Records of combination poorhouses, hospitals, industrial schools and children's homes (which took in individuals from more than one parish) are listed under 'Institutions' at the top of each county list, whilst records of institutions connected to a particular town or parish can be found under that town/parish. In most cases, only admissions registers and other lists of names for the various institutions have been included, but other useful records, particularly minute books, often exist.

Note: Many records concerning the poor are subject to 75-year or 100-year closure periods. Where a volume covers a date range which includes restricted and unrestricted material, the entire volume may be closed.

Abbreviations

LDS = The Church of Jesus Christ of Latter-Day Saints - microfilms can be accessed through FamilySearch Centres throughout the world

NRAS = National Register of Archives for Scotland - documents are privately held but access may be granted to researchers - see <http://www.nas.gov.uk/onlineregister/> for details of how to apply

NRS = National Records of Scotland (formerly National Archives of Scotland)
